SUMMARY

Electrical and Computer Engineering student with professional experience across energy, analytics, software development and engineering. Completed an internship at Shell alongside previous experience in financial-market analytics and software development, developing a strong combination of technical, analytical and commercial problem-solving skills. Proficient in programming and have experience working with data, developing software and contributing to multidisciplinary engineering projects. A quick and adaptable learner with a demonstrated ability to understand unfamiliar systems and work effectively in new environments

PROFESSIONAL EXPERIENCE

- Shell, Distribution Operations Intern

Jul 2026 - Aug 2026

 - Developed and deployed electrical infrastructure diagnostic tools to support terminal operators, reducing lead times and operational risks while increasing efficiency
 - Analysed electricity consumption and created cost reduction plan with minimal operational disruptions
 - Presented technical findings and recommendationss to senior leadership, including the country chair
 - Contributed commercial insights following a live business deal discussion, supporting the team’s evaluation and subsequent decision.
- Paste Thai Cuisine, Dining Room Attendant

Feb 2026 - Apr 2026

 - Customer service under pressure in highly intense environment
 - Identify and quickly approach tasks to maintain smooth workflow for the whole team
- SpiceRoads Cycling, Software Developer

Jun 2025 - Sep 2025

 - Contributed to development of core TypeScript software components for the company’s new website
 - Supported the design and implementation of SQL database infrastructure
- Trinity Securities, Analytics Intern

Aug 2024 - Sep 2024

 - Designed and iterated on Python-based market forecasting model using historical financial data
 - Attended market analysis meetings with the lead analyst and contributed insights

EXTRACURRICULAR

- Nottingham Thai Society, Vice President

Sep 2026 - Present

 - Lead outreach to prospective sponsors and manage external relations to secure support
 - Represent the society in communications with Samaggi Samagom, the UK-wide Thai student network\
 - Coordinate with the committee to plan and deliver events for the society’s community
- UON Formula Student, Electronics Team

Nov 2025 - Jun 2026

 - Designed the PCB for the High Voltage Interlock Loop (HVIL) system of the Formula Student vehicle charging cart, supporting safe high-voltage operation.
- Unpublished research using AI

Aug 2023 - Oct 2023

Chulalongkorn University

 - Processed GC-IMS data and developed machine-learning approach for chemical fingerprint classification

EDUCATION

- Bachelor of Electrical and Computer Engineering

Sep 2024 - Jun 2027

University of Nottingham - 75.75% Weighted Avg - First Honors

 - Built and installed image recognition software into remote controlled car
 - Created 3D Visualisation Software

ADDITIONAL INFORMATION

- Languages:** Thai (Native), English (Native)
- Activities:** Band Guitarist, Highschool Volleyball Captain, University Volleyball Captain, 3D Printing
